TREASURE COAST REGIONAL PLANNING COUNCIL

MEMORANDUM

To: Council Members
From: Staff
Date: December 14, 2018 Council Meeting
Subject: Florida Chamber Foundation – 2030 Update – Presentation by John Kaliski, Principal, Cambridge Systematics

Introduction

*Florida 2030* is the result of the Florida Chamber Foundation’s three-year collaborative effort to create a strategic, long-term plan for the state. This plan is the product of input from over 10,000 Floridians from private, public, and civic organizations, and citizens who attended 83 town hall meetings in all 67 counties in the state. The plan is organized around the Six Pillars of Florida’s Economic Future – Talent Supply & Education; Innovation & Economic Development; Infrastructure & Growth Leadership; Business Climate & Competiveness; Civic & Governance Systems; and Quality of Life & Quality Places. The plan provides statistical and forward looking research results that outline what we need to do as a state to be globally competitive, create prosperity and high paying jobs for all citizens, and design vibrant and resilient communities that will attract and retain talent.

John Kaliski, Principal, Cambridge Systematics, will provide an overview of the plan. Mr. Kaliski is the consultant Project Director for *Florida 2030*. He has worked with numerous Florida organizations on long-range visions and strategic plans, including work with the Florida Department of Economic Opportunity, the Florida Department of Transportation, Enterprise Florida, CareerSource Florida, Space Florida, and regional planning councils, metropolitan planning organizations, and economic development organizations across the state.
