

YOUR COMMUNITY ~ YOUR VISION

Are You Interested in the Future of SR 7 in Western Palm Beach County?

Please join us for a series of public meetings to address concerns and opportunities on SR 7 from Broward County to north of Glades Road. Your input will help planners, engineers, and architects develop strategies to transform SR 7 into a more livable, desirable, and transit-supportive corridor.

What is a Charrette? Charrette means "cart" in French; various architectural school legends hold that at the Ecole des Beaux Arts in 19th Century Paris, students were still sketching as carts carried their boards away to be juried. Today, the term describes an intensive, creative session where a team focuses on specific problems with citizens, and then develops design solutions in a short period of time.

This SR 7 Charrette is a component of a long-term strategy for sustainable land use and mobility options that reduce greenhouse gas emissions in the area crossing the Broward/Palm Beach County Line between the Turnpike and the Everglades Conservation Area.

The Week-Long Charrette Process

**PUBLIC DESIGN
WORKSHOP
PROVIDE YOUR INPUT**

SATURDAY, APRIL 17, 2010

10:00 AM - 3:00 PM

OLYMPIC HEIGHTS COMMUNITY HIGH SCHOOL

CAFETERIA
